Sunday, August 18, 2018 Fire Update-

Port McNeill Fire Department (FD) is still active within the community. Comox FD Structure Protection Unit is actively setting up protection for property exposures along with a Structural Protection Specialist. Strategic forest fire fighters are also active in the area. Later in the afternoon, a heavy helicopter will be onsite dumping water. Fire was very active in the early morning hours and has calmed down as the day has progressed. Currently, it appears to be moderately active.

An evacuation order has been issued for those specific properties with risk of falling debris (6 properties with structures). **THIS IS FOR 6 PROPERTIES ONLY.** Those owners have been notified.

Keep our fingers crossed that the fire stays in its present state and that the weather cooperates. A nice windless Zeballos rain storm wouldn't hurt.
