Tuesday, August 21, 2018 update-

The south flank of the fire closest to the Village flared up overnight and in the early morning. The fire continues to move south along the ridge above the East Side of Zeballos. The Structural Protection Unit is setting up sprinklers behind those properties that back up to the mountain below the fire on Ferris Rd. An extra 10 man crew has been deployed to the fire and will be doing brushing as well as helping to facilitate the setup of sprinkler systems.

The visibility has been hampering the air support. This fire is a priority for aviation resources and is being given attention as soon as it is safe to fly.

A special thanks to the volunteers hard at work at the Community Hall feeding and providing a restful area for the fire crews. Another huge thank you to those who have donated supplies and provided baked goods. Your help is much appreciated!

Next steps for residents: Continue to be vigilant. Be ready to comply with an evacuation order. Thank you to everyone for cooperation at this time.
