Wednesday, August 22, 2018 Wildfire update-

The south flank of the fire has continued to move southward along the ridge above the East Side of Zeballos. Aviation resources are currently bucketing water in the area, focusing on the southern edge nearest to the BC Hydro lines. BCWS and the Port McNeill Fire Department remain on the ground. The Comox Structural Protection Unit continues to monitor the properties backing up to the mountain on Ferris Road as well as the six properties under Evacuation Order.

Visibility and air quality continue to be poor. With weather conditions bringing NW winds, we expect the air quality to improve over the next few days.

Additionally, the Community Hall kitchen is in need of people to sign up for the following shifts in the coming days:

- Breakfast shift from 6:30 am - 9:30 am
- Dinner shift from 6:00 pm - 9:30 pm

The expectation is that the food services need to continue until at least Saturday, August 25. The shopping has been done and the menus have been planned. Now, some help with the execution is needed.

Please call the Village Office at 250-761-4229 or stop by in person to sign up for a shift.
