The Village of Zeballos is currently working on a housing needs assessment, which BC municipalities are now required to complete every five years. The project will gather some of the information needed for updating our Official Community Plan. The housing needs assessment is being funded by the BC Government through a program administered by the Union of BC Municipalities. WCS Engagement + Planning has been hired to assist the District with this project.

Your input is critical to the housing project and will help us to better understand and respond to housing needs in our community! Take the housing survey by Monday, June 22 at 4:00PM and win \$50 cash! Please take it online if you can at:
