BRIDGE PROJECT UPDATE

MESSAGE: The Bridge will be **closed to vehicle traffic** on **November 8th**.

The Engineering and Design contract has been signed with ISL Engineering Ltd. They will be starting the geotechnical part immediately in order to keep the project on the timeline. They will be digging test holes on November 8th which necessitates the closure to vehicle traffic. The Bridge will reopen as soon as they have completed the work.

ISL is also planning to hold an open house at the Community Hall on **November 30th** to invite public comment. Watch for posters with more details as the time draws nearer.

The project manager advises that it is very likely the bridge will be completely closed for an extended period of time (2-3 months) during the construction phase. We expect that to be the summer of 2017.

Remember to register your local service availability at the Village Office thru the business license program.

RCMP COVERAGE

If you have an emergency please call 9-1-1. Just because we do not have officers on duty every day, please do not think that we are not covered. Sometimes officers are in the community or very close by. Their radio systems are superior to VHS and they can be reached by dispatch at any time.

THANKS FOR THE DONATION

The Heritage Committee would like say thank you to **Don Heppner** for his recent donation to the museum. The mining equipment helps us show visitors a part of the Zeballos history.

The Heritage Committee has several empty seats and is looking for volunteers to fill them. If you would like to help to keep the museum alive, it just might be your turn. Call 761-4229 and we'll put you in touch with someone on the committee.

OFFICE CLOSED
