WILDLIFE CONFLICT WARNING

Please be advised that there are currently wolves in the Zeballos area. On April 5th, a dog was killed in the community by wolves. The Conservation Office is aware and is monitoring the situation.

To reduce wildlife conflict, always keep your dog on leash and inside overnight to prevent your dog from becoming a threat or food source for wolves nearby. Be mindful while using trails in the area or spending time outdoors.

Anyone who has seen, photographed, or has any information regarding these wolves, please call the 24 hour Report All Poachers and Polluters (RAPP) hotline at 1-877-952-7277.
